OBJECTIVE

Innovative and results-driven software developer with 3.5+ years of experience in full-stack development. Seeking a challenging .NET Developer role to leverage my expertise in .NET Core, ASP.NET MVC, SQL and Angular for developing scalable, high-performance applications. Passionate about solving complex problems, optimizing system performance, and collaborating in an agile environment to drive business success.

PROFESSIONAL SUMMARY

- 3.5+ years of hands-on experience in designing, developing, and maintaining enterprise applications using .NET Core, ASP.NET MVC, and Angular.
 - Expertise in developing RESTful APIs, microservices, and integrating robust backend systems with .NET Core.
 - Proficient in Angular 13+ for developing responsive, user-friendly front-end applications.
 - Strong knowledge of SQL Server, database optimization, and ORM frameworks like Entity Framework.
 - Hands-on experience with CI/CD pipelines (Azure DevOps), version control (Git), and code quality tools (SonarQube).
 - Skilled in containerization using Docker for application deployment and scalability.
 - Strong collaboration and problem-solving skills to deliver high-quality software solutions on time.
-

TECHNICAL SKILLS

- Programming Languages: C#, TypeScript, JavaScript
- Frontend Technologies: Angular 13+, HTML5, CSS3, Bootstrap

- Backend Technologies: .NET Core, ASP.NET MVC, RESTful APIs, Microservices, ADO.NET, Entity Framework
 - Databases: Microsoft SQL Server, PostgreSQL, Oracle, Azure DB
 - Tools & Platforms: Visual Studio 2019 & 2022, Git, Azure DevOps, JIRA, SonarQube, Docker
 - Cloud Technologies: Azure (CI/CD pipelines, serverless architecture, cloud deployments)
 - Containerization & Virtualization: Docker, Docker Compose
 - Operating Systems: Windows 10, Windows 11
-

EDUCATION

Bachelor of Technology in Electrical Engineering
Gondwana University, October 2021

PROFESSIONAL EXPERIENCE

Software Developer

Senwell Solutions – Hybrid | August 2024 – Present

- Working on Resource management system for Airways Domain, implementing robust software solutions using ASP.NET Core MVC.
- Developing and optimizing banking applications and Implementing SSIS (SQL Server Integration Services) for seamless data integration.
- Worked on the Health care domain project using ASP.NET Core, Angular, and SQL Server.
- Ensuring efficient development and deployment in an Agile environment.
- Leveraging Docker to containerize applications for enhanced portability and scalability.

Software Developer

Intone Networks – Hyderabad | May 2023 – August 2024

Projects:

- **Intone HRMS Portal**

- Developed features for HR management, including recruitment, onboarding, payroll, and leave tracking.
- Ensured seamless integration between front-end (Angular) and backend (ASP.NET Core).
- **NYC DCAS**
 - Contributed to the NYC Department of Citywide Administrative Services project.
 - Designed user interfaces, optimized functionalities, and enhanced system performance.
- **HRMS Revamp**
 - Improved UI/UX with Angular, making applications more user-friendly and responsive.

Key Responsibilities:

- Developed, tested, and maintained applications using .NET Core, SQL, and Angular.
- Collaborated with cross-functional teams to define system requirements and deliver solutions.
- Conducted code reviews and ensured compliance with industry best practices.

Software Developer

NFC Solutions – Hyderabad | April 2022 – April 2023

Projects:

1. TASK – Ticket Management System

- Developed a robust tool for ticket creation, issue tracking, and bug resolution.

2. FLEXSCAN MD

- Designed and developed a medical inventory management system.

3. TemPositions Group

- Built and maintained staffing agency applications to streamline talent acquisition and management.

Key Responsibilities:

- Configured applications to align with business processes and requirements.
- Conducted unit and integration testing to ensure software quality and performance.
- Participated in Agile development, including sprint planning and retrospective meetings.

Full Stack Developer

AvenDATA – Remote | November 2021 – February 2022

Project: Internal Company Portal

- Designed and developed an internal portal using ASP.NET Core and Angular.
- Implemented secure API integrations and optimized SQL Server performance.
- Delivered high-quality solutions within tight deadlines.

KEY RESPONSIBILITIES & ACHIEVEMENTS

- Built scalable, high-performance full-stack applications using Angular and .NET Core.
 - Designed and optimized RESTful APIs and microservices for seamless backend communication.
 - Implemented CI/CD pipelines in Azure DevOps for efficient software deployment.
 - Collaborated in Agile environments, participating in sprint planning, code reviews, and client meetings.
 - Successfully delivered multiple enterprise-grade projects within strict timelines and quality standards.
